

EASY Algae Remover

Benefits & Uses

A professional strength algae, mold and light infestation lichen killer. This easy to use formula can be used on paths, patios, decking, walls, fences, roofs, garden furniture, statues and memorials. Results can be seen in hours

The product does not contain solvents, acids or caustic soda.

Expectations & Limitations of the Product

Expectations EASYCare Algae Remover is designed to effectively assist the removal of and prevent re-occurrence of algae growth.

Limitations Not designed for use on Black Spot, Lichen or Moss, however some positive effects may be seen.

Occasionally on some types of timber, where the algae has died off 'white deposits' are noticeable after treatment, particularly where there has been heavy contamination. These can be cleaned off afterwards by brushing.

Instructions for Use

Prior to Use

- Brush away leaves and debris before applying
- Shake well before use
- Keep away from plants
- Keep animals and pets away until cleaning process is complete and surface is dry
- Do not apply if rain is expected within 4 hours
- Protect any surface or area not being treated.
- Never mix or add any other cleaners or acid to the product

Application Add 1 measure to 1 ltr of clean water and mix thoroughly (see below).

Apply using a spray, watering can or brush, at a coverage rate of:

Light contamination: 5 sq meter per Ltr

Medium contamination: 4 sq meters per Ltr

Heavy contamination: 3 sq meters per Ltr.

Ensure heavy growth areas are saturated. They will also benefit from agitation with a brush.

Do not clean off the product. Results start to show in hours. Easy Algae Remover continues to work for up to 12 months

Examples of the issues arising from inappropriate or incorrect application

Poor Results If the algae does not disappear completely after approximately 72 hours, apply a further coat as perhaps the saturation rate was insufficient for the level of contamination.

Note Harmful to plants and aquatic life.

Storage & Display

Do not store or display below 5°C. Keep out of direct sunlight and protect from frost.

Health & Safety

For use only as a surface biocide

Contains Benzalkonium Chloride

Approved under Control of Pesticides Regulation 1986. HSE No.9648
